Enlist Now In Arizona Guard

Recruiting offices for the First Arizona Infantry will be opened this morning in Phoenix, Yuma, Tucson and Douglas. Colonel Harris, adjutant general of the Arizona guard, stated last night that it was necessary at once to fill the ranks of the regiment up to war strength, and that young men who are patriotically inclined, are urged to enlist at

once.

The regiment is one of the finest now in active service, and it is expected that if there is any active service, the Arizona boys will be among the first to be cailed.

Captain Temple will be in charge of the local recruiting office which will be at the armory, corner of First street and Polk. It is probable that as soon as the war department starts to raise the huge army requested by the president, drafting will start. By joining now, men will not be forced to enter the ranks, and will have the distinction of belonging to a strictly volunteer organization.

As soon as the pacifists began to arrive today they were sent to Capitol of Hill by their leaders and told to see the senators and representatives from their home states. The capitol and the house the and senate affice buildings. Herally swarmed with them for several hours with the period that Banning Ir was during this period that Banning Ir was during the period

"What this will involve is clear. It will involve the atmost practicable cooperation in counsel and action with the governments now are war with Germany, and, as incident to that the extension to those governments of the most liberal financial credits, in order that our resources may, no far as possible, be added to theirs. It will involve the organization and mobilization of all the material resources of the country to supply the materials of war and serve the incidental needs of the nation, in the most abunadat, and yet the most economical and efficient way possible. It will involve the immediate full equipment of the naver in all repossible. It will involve the immediate full equipment of the navy in all respects, but particularly in supplying it with the best means of dealing with with the best means of dealing with the enemy's submarines. It will involve the immediate addition to the armed forces of the United States already provided for by law in case of war, at least 500,000 men, who should, in my opinion, be chosen upon the principle of universal liability to service, and also the authorization of subsequent addi-tional increments of equal force so soon as they may be needed and can be handled in training.

"It will involve also, of course the granting of adequate credits to the government, sustained, I hope, so tar as they can equitably be sustained, by the present generation by well conceived taxation. I say sustained so far as may be equitable by taxation because it seems to me that it would be most unwise to base the credits which will now be necessary entirely on money borrowed. It is our duty, I most respectfully arge, to protect our people so far as we may against the very serious hardships and evils which would be likely to arise out of the inflation which would be produced by vast loans. "In carrying out the measures by "In carrying out the measures by which these things are to be accom-plished we should keep constantly in mind the wisdom of interfering as little as possible in our own preparation and in the equipment of our own military forces with the duty—for it will be a very practical duty—of supplying the nations already at war with Germany with the materials which they can obtain only from us or by our assistance. tain only from us or by our assistance. I hone that it will be your pleasure to deal with them as having been framed after very careful thought by the branch of the government upon which the responsibility of conducting the war and safeguarding the nation will most directly fall.

"While we do these things, these deeply momentous things, let us be very clear and make very clear to all the world what our motives and our objects are. My own thought has not been driven from its habitual and normal course by the unhappy events of the last two months, and I do not believe that the thought of the nation has been altered or clouded by the leve that the thought of the nation has been altered or clouded by the second of January last; the same that I had in mind when I addressed the congress on the third of February.
